Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because there should be reference numerals identifying the different parts of the implement. See cited patents as examples.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities: Under the "DETAILED DESCRIPTION OF THE INVENTION" section beginning on p. 3, there should be identifying reference numerals consistent with the drawings in describing the different parts of the implement. See cited patents as examples.

Appropriate correction is required.

3. Note that in the claim, the recitation in parentheses reciting "(bristles and/or sponge(s) and/or pad(s))" makes the claim scope vague since it is unclear whether such recitation is merely exemplary. Furthermore, such expression is alternative in that it is unclear what Applicant is intending the actual claimed invention to be with respect to the scrubbing mechanism.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bernet '529.

The patent to Bernet '529 discloses an implement (Fig. 3) consisting of a scrubbing mechanism defined by bristles 16, a "diaphragm" defined by collar 24, and an operator handle 2. Clearly, the handle 2 may be used in two ways, if so desired, in that it can operate on or along the inside surface of a toilet trap-way to clear blockages in the same and it can operate as a scrubbing device in and around a toilet bowl (col. 1, lines 15-16).

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Budd, Pike, Feagin, Anderson, Gesell, McParland, and GB '431 are all pertinent to various devices that clear pipe or tube blockages..

7. Any inquiry concerning this communication or earlier communication from the Examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The Examiner can normally be reached on Monday through Thursday and every other Friday.
